

Photography Group

Animals at the Heavy Horse Centre

On a lovely sunny day eleven of the group went to Baumber Walled Garden. After a brief revue of the photos taken the previous month at the Northcote Heavy Horse Centre and a light lunch our members were free to take photos of what Baumber Walled Garden has to offer.

In this month's magazine we have some photos of the other animals and birds that Northcote have at the centre along with our photo project which was "Blue" with some quite varied subjects.

Our next outing is to Rutland Water on the 18 July and the project photo is of "Light & Shade".

The Photography Group operates in a relaxed environment and is more about photographs rather than the camera, although help is always available for anyone needing some guidance.

So, if you are interested in taking photographs and would like to join us then please contact the photography group leader via the groups page on the website
